

## PRESS RELEASE

Toulouse, 29 March 2024 at 7 am

# ACTIA announces a technological collaboration with Ampere in the field of vehicle embedded systems

**ACTIA has initiated a technological collaboration with Ampere - the Renault Group entity dedicated to electric vehicles and software - in the field of vehicle embedded systems.**

In this context, ACTIA will support the deployment of solutions and skills through:

- The signing of an agreement for the sharing of expertise as part of the transfer of an ACTIA software solution in the field of vehicle embedded systems.
- The signing, subject to certain conditions precedent, of a project to set up a dedicated team, which is expected to be integrated by Ampere by the end of 2024.

This collaboration is part of ACTIA's strategy to establish itself as a major player in the transformation of the automotive sector. It will enable ACTIA to capitalize on its high level of technological expertise in its core business, on-board electronic systems for vehicles, and ultimately strengthen its financial structure consistent with the actions undertaken over the past 2 years.

### ABOUT ACTIA

ACTIA Group is a mid-market company (ETI) founded in 1986. It is at once family-owned and international, and its head office is located in France. The family aspect guarantees the long-term future of the Group and its independence with an ever-present entrepreneurial spirit. ACTIA's business is to design and produce electronics to control systems in the particularly demanding fields of the automotive, rail, aeronautics, space, defence, energy and telecommunications industries.

The commitments made by ACTIA are reflected in the Group's ambitious contributions to addressing societal issues: mobility, connectivity, safety, and the environment. Control over the design and production of products bearing the ACTIA signature is a true guarantee of quality. All Group employees share this belief in quality in a fully certified environment.

### KEY FIGURES

- 2023 turnover: €579.3m.
- More than 4,000 employees around the world, including about 1,450 engineers and technicians working in R&D.
- Present in 17 countries.
- 14 to 18% of revenue reinvested every year in R&D.
