Q1 2014 turnover: € 76.7 million (+ 14.5 %)

Favourable like-for-like basis

Consolidated turnover in € millions	2014	2013	Var.
Q1	76.7	67.0	+ 14.5 %
Of which: Automotive	68.3	59.5	+ 14.8 %
Telecommunications	8.4	7.5	+ 12.0 %

Unaudited figures

In the first quarter of 2014, ACTIA Group achieved turnover of € 76.7 million, up by 14.5 % compared to Q1 2013. The high rate of growth is due mainly to the relatively low basis for comparison in Q1 2013.

In 2014, the Group has already stated that it expects growth rates at least similar to those achieved in 2013.

Over the period, the turnover generated by the overseas subsidiaries rose by 12.0 % to stand at 45.3 % of the total business, while international customers represented 62.0 % of the business.

Both divisions of the Group contributed to the growth achieved over the quarter:

- **The Automotive Division** (89.0 of sales) recorded turnover of € 68.3 million, up by 14.8 %. The business benefitted from continued growth in the output of telematic portals for trucks and top of the range cars, as well as stronger sales to fleets and for rail. At the same time, sales generated by electric cars continued their previous regular trend.
- **The Telecommunications Division** (11.0 % of sales) finished the quarter with turnover of € 8.4 million and the 12.0 % growth rate was driven by the work done to develop ground stations for the multi-year Defence contract COMCEPT.
